

Decision 06-04-061 April 27, 2006

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Yoseph B. Hiwot, an individual doing business as Eagle Airport Shuttle for authority to operate as an on-call passenger stage corporation between points in Alameda County, Santa Clara County, San Mateo County and San Francisco International Airport, Oakland International Airport and San Jose International Airport.

Application 05-10-014
(Filed October 14, 2005)

O P I N I O N

Summary

This decision grants the application of Yoseph B. Hiwot (Applicant), an individual, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF), pursuant to Pub. Util. Code § 454.2.

Discussion

The application, as amended by letter received March 13, 2006, requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Alameda, San Mateo, and Santa Clara Counties, on the one hand, and San Francisco (SFO), Oakland (OAK), and San Jose (SJC) International Airports, on the other hand. Applicant states that there is a need for additional airport shuttle service to reduce the number of private automobiles on the highways. He also indicates that congestion at the airports, particularly in the

loading and unloading areas, has become excessive and difficult for airport authorities to control. Applicant believes that the recent growth in passenger traffic at the Bay Area's airports will continue in the future.

Applicant's work experience includes assisting in the management and operation of a San Jose taxicab company, involving dispatching, marketing, and customer relations. Initially he will operate one 7-passenger van. Applicant states that he has cash and available credit totaling approximately \$40,000 to fund the operation.

The proposed fares, as shown in Exhibit B of the application, range between \$15 (Alameda - OAK) and \$89 (Gilroy - OAK). Applicant requests authority to establish a ZORF of \$10 above and below the proposed fare. The minimum fare will be \$5. Applicant will compete with other PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on October 19, 2006. Applicant requests a waiver from the provisions of Rule 21 of the Commission's Rules of Practice and Procedure which require service of a notice of the application on all city and county officials within whose boundaries the passengers will be loaded or unloaded. Applicant served a notice of the application to the involved counties and airports, 17 cities, and the public transit operators and transportation planning agency in the service area. Applicant states that all parties that have an interest in Commission proceedings subscribe to or have access to the Commission's Daily Calendar. We shall exercise the discretion accorded to us by Rule 87 and grant the waiver requested

by Applicant because he will be providing on-call service, not scheduled service, and service on all cities in the service territory would be burdensome.

In Resolution ALJ 176-3161 dated October 27, 2005, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3161.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

Assignment of Proceeding

Richard Clark is the assigned Examiner in this proceeding.

Findings of Fact

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Alameda, San Mateo and Santa Clara Counties, on the one hand, and SFO, OAK, and SJC, on the other hand.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares shown in Exhibit C of the application. The minimum fare will be \$5.
4. Applicant will compete with PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his operations. The ZORF is fair and reasonable.
5. Applicant requests a waiver of the notice requirements of Rule 21 of the Rules of Practice and Procedure as he has served notice to the involved counties

and airports, 17 cities, and the public transit operators and transportation planning agency in the service area.

6. No protest to the application has been filed.
7. A public hearing is not necessary.
8. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusions of Law

1. Public convenience and necessity has been demonstrated and the application, as amended, should be granted.
2. The request to waive the notice requirements of Rule 21 should be granted.
3. The request for a ZORF should be granted.
4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.
5. Since the matter is uncontested, the decision should be effective on the date it is signed.
6. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
